**If you could magically delete your clients' limiting beliefs,
what could they accomplish?**

And what could *you* achieve?

**The *Clear Beliefs Method* gives you the ability to create
sustainable transformational change in every session.**

I am a Medical Doctor and skeptical scientist. This isn't woo-woo – it's neuroscience. The method works directly with the subconscious mind in an ingenious way, accessing the underlying source of issues. It's an advanced method for helping your clients achieve their peak performance. If you help people change their mindset or overcome difficulties, you MUST take this course! I've studied EFT, EMDR, Memory Reconsolidation, Reiki, Visualization, and more. The Clear Beliefs Method is the most efficient and the fastest method I've seen to eliminate blocks, repattern limiting neural pathways, heal deeply embedded core wounds, and allow the client to become whole again. It borders on the miraculous. Don't miss this opportunity to invest in yourself and your future.

~ Irena Kay, M.D., Executive and Relationship Coach, Frenchtown, New Jersey

Coaches, therapists and healers will save years of study and a lot of money by taking this course rather than experimenting with many different modalities and trying to find one that works. Lion has integrated many of the healing modalities I spent 30 years studying and shaped it into one impactful course. I wish I had taken this course 30 years ago. Better late than never...

Introduction

The Clear Beliefs Coach Training is a practical integration of numerous disciplines:

- Developmental psychology
- Neurology & brain research
- Consciousness studies
- Anthropology and evolution
- Mindfulness and awakening
- Positive psychology
- Cognitive science and linguistics
- Philosophy of mind
- Embodiment and somatics
- Principles of success

The goal of the training is to empower coaches, consultants, therapists and healers by giving them practical tools and methodologies to help their clients clear beliefs, psychological blocks and frustration caused by internal resistance.

This innovative 5-month certification program has been taught since 2002, and is accredited by International Coaching Foundation for 48 hours of CCEUs.

The Clear Beliefs Method is a set of master keys that open the locked doors of the subconscious mind. Using it, you can expose the actual *cause* of your clients' difficulties, and the blocks, barriers and resistance that hold them back. Then remove them – rapidly and permanently.

The standard model of professional coaching cautions coaches to *avoid* any hint of involvement in therapy. It says, "Leave the **past** to psychologists and psychotherapists – just focus on the **present** and the **future**."

This is good advice – theoretically. On a practical level, it *fails* our clients. What stops or frustrates most people from moving forward is something from the *past* – self-limiting beliefs, core wounds from childhood, or negative views of the self, others, or the world.

Therapists and healers need better tools and effective skills for facilitating deep transformation in their clients. *The Clear Beliefs Method* can be used to clear blocks that prevent complete healing. It can finally resolve old traumatic events, and dissolve psychological knots that tie up clients in their old patterns. Watch limitations disappear, and new possibilities appear.

Many other techniques promise relief, but their results are usually temporary – or only partially effective. The same patterns of thought, emotion or behavior appear again and again.

There is a reason for this. Most methods of belief-change, mindfulness, and psychological healing are only one-dimensional. They may focus specifically on mental constructs, emotional release, physical health and well-being, psychological resolution, mindfulness, spiritual awakening, or energetic clearing.

All of these methodologies are useful, for some people, some of the time. But because they focus on only one dimension of human experience, their technology does not affect the multidimensional nature of consciousness, which includes all of those modalities. Thus, they get partial or temporary results.

The Clear Beliefs Method is a multidimensional solution to a multidimensional problem. By involving all aspects of human experience, when a shift occurs, it

impacts the person's entire being. Processes are aimed at the causal level of mind, the **belief layer**, which is the actual infrastructure of the human psyche. When you operate there, you can facilitate profound transformation – simply, rapidly and permanently.

The Clear Beliefs Method is a joy to conduct because significant shifts occur in almost every session. Your clients feel immediate, palpable relief after you work with them. They feel lighter. Their world appears brighter, more open, and filled with new possibilities.

I just completed the Clear Beliefs Coach Training and I am beyond grateful for its comprehensiveness, quality and transformative power, as well as for Lion's generosity, sincerity and mastery as a teacher and guide. I've received effective and cutting-edge tools to transform the lives of my clients, and in addition, got the opportunity to identify, challenge and transform my own limiting beliefs, thought patterns and self-perceptions – a key to becoming a successful coach. It will be an honor and joy to work as a Certified Clear Beliefs Coach. I can't wait to share what I've learned with my clients!

~ Anna Brismar, MindShift Coaching, Stockholm, Sweden

Students are trained to work with the full range of human unhappiness and “normal” dysfunction, which one would see in any coaching or healing practice,

including:

- Stress
- Anxiety and fear
- Relationship problems
- Health and body concerns
- Career uncertainties
- Business growth and business development
- Limitations in one's abilities
- Lack of future vision
- Confusion about present circumstances or the future
- Lack of meaning
- Financial stress and money concerns
- Self esteem
- Imposter syndrome
- Impacts of childhood
- ... and more.

Students are taught to identify clients who suffer from psychological disorders, and those diagnosed with a mental or psychological disorders, and to refer them out to trained psychologists, psychiatrists, psychotherapists and trauma specialists. We train practitioners who work with the “worried well,” individuals who are functional in their lives, and who are looking to improve their mindset, circumstances or relationships.

The Clear Beliefs program has given me the ability to transform my clients' beliefs. As a therapist, I have always felt that working with beliefs was crucial to the therapeutic process, but I had never been given the tools to do so. This training gave me exactly what I was missing. The program is very rich in knowledge, in practical know-how, and in practice. Lion is one of the best teachers I have ever met. He lives and breathes what he teaches, and has endless knowledge and experience, which he shares openly with his students. His endless generosity is inspiring. And he has a sense of humor! It was very clear that Lion and his staff want each of us to succeed.

~ Gali Sobol, Holistic Therapist, Israel

The Clear Beliefs Method

Many graduates have stated, "The Clear Beliefs Method is a magical technology for creating immediate, positive and permanent shifts in my clients."

Negative and limiting beliefs create doubts, fear, ambivalence, and procrastination. They undermine our relationships and our work. They prevent us from doing what we need to do to succeed. They appear as inner blocks and resistance, cutting us off from the free flow of energy, love, and wisdom that flows through us.

With the integrated set of transformational tools of the Clear Beliefs Method, you will be able to communicate directly with your client's subconscious mind and clear whatever is standing in their way – whether physical, emotional, mental, psychological, or spiritual.

When you can rapidly and radically improve your client's life, you will become indispensable to them as they move forward toward success in all areas of life.

The Clear Beliefs Method allows you to reprogram early programming from family, culture, and society – beliefs that interfere with your client's creativity and power to move forward in life.

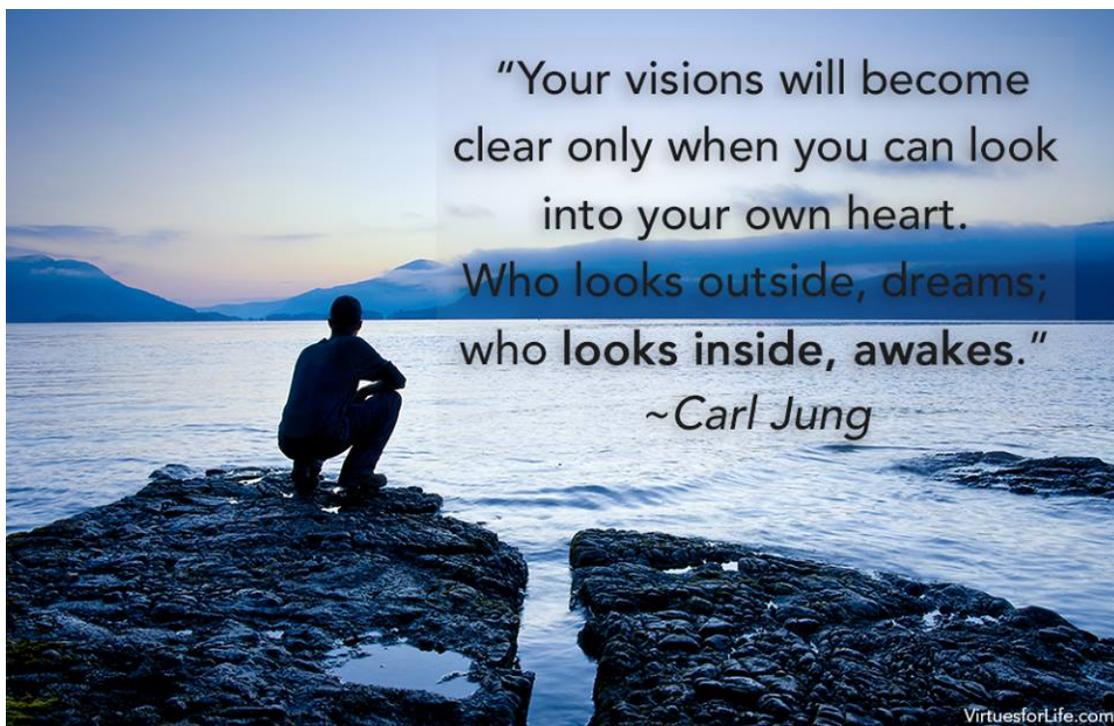

It is built on a solid foundation of both scientific and philosophical research in developmental and positive psychology, neuroscience, mindfulness practices, somatic awareness, guided imagery, and consciousness studies. It is a unique synthesis of more than 40 years of study, practice, and refinement of practical techniques that work.

You will easily integrate these methods into your existing practice and customize each process to your individual client's needs. You will help them integrate new empowering beliefs in place of their old limiting ones, shifting their reality toward positivity and possibilities.

Coaches, psychotherapists, healers and consultants around the world are using the Clear Beliefs Method to catalyze profound change in their clients' lives.

When you help your clients clear their limitations out of the way, your reputation will soar. You will be known as a practitioner who can produce true, long-lasting transformation and success. Happy clients are the best source of referrals to future business.

You've probably noticed inner resistance and blocks in your own life, and how they have limited your success and happiness. You will learn how to delete and transform your own limiting and negative beliefs, and become unstoppable.

What Makes the Clear Beliefs Method Unique?

You've heard the statement, "Your beliefs create your reality."

If this were true, you would be able to shift your reality by changing your beliefs.

It IS true, and you can demonstrate it through your own experience.

When you change a belief at the core of your psyche, your experience of reality changes, too. You see the world differently. You feel different than you did before. You operate at a different level of awareness.

Sometimes these changes are dramatic, and sometimes they are subtle, because what was in the way is simply... *gone*. What was closed is now open. What was unthinkable is now possible. What couldn't be seen is now visible and actionable.

Some techniques of belief-change, such as positive affirmations, attempt to overpower the negative beliefs inside of you. Positive thoughts are helpful – for a while. But your old beliefs eventually creep back in, like ghosts returning to haunt your life forever.

Other methods of belief-change attempt to disrupt beliefs at the conscious level. You recognize that the belief isn't true. This is helpful! For a while. Unfortunately, conscious

awareness of a belief doesn't *eliminate* the belief at its source in the subconscious mind. Its debilitating effect will continue, and you have to remind yourself – over and over – that the belief is not true. Why not get rid of them completely and permanently?

There are many belief-change methods that use tapping on the body, muscle testing, or mystical hand-waving to locate beliefs or clear their energetic signature. These methods can work at times, for some people, but the techniques are just too weird for many clients. More importantly, they do not completely eliminate the old belief because they haven't touched the deep infrastructure of the mind.

These techniques are only partially effective – a temporary band-aid on top of a deep wound.

The Clear Beliefs Method is designed to create permanent change by eliminating the belief completely – from ALL parts of the Self.

Apply the processes to your own beliefs, and you'll easily clear obstacles in your own path toward success. Apply it to your clients, and you'll deliver immediate shifts of immense value.

The Secret to Creating Profound Transformation

Transformation is a fundamental shift in the individual's point of view, a recognition of who they *really* are behind the pattern they're stuck in. It doesn't occur because of new information entering the system, nor from good suggestions or counteraction from an outside party.

Our techniques aim toward the kind of experience that creates that profound shift, a realization that changes *everything*. It is referred to as a *transpersonal* experience, meaning it is beyond the usual egoic view of oneself and the world. Our intention is to give our clients an experience of their True Self – which we call Creator Space – an expanded view from a higher dimension of consciousness.

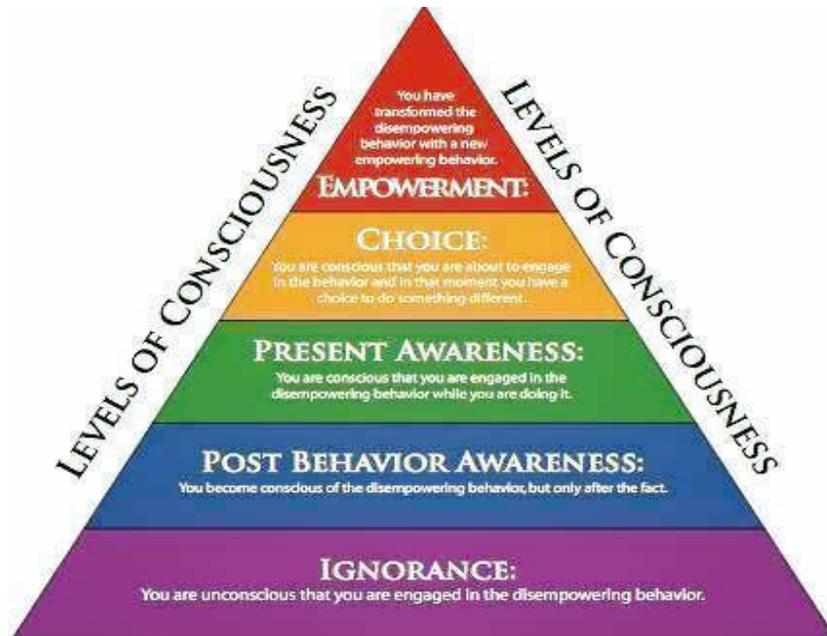

When it occurs (and it occurs routinely in our sessions), it is joyful and empowering to experience. It is akin to what meditators achieve after many months of deep practice. The inner barriers, resistant patterns and old stories simply fall away in the light of this recognition.

When a client experiences the dropping away of false masks they have used throughout their life, there is a shift in the belief "*I am this.*" The world shifts, too, in response to this expanded awareness.

The false self dissolves along with the struggle, trying, and faking it. Authenticity emerges easily, because most of the troubles were created by the wrong assumptions and fakery of the ego. In this more natural, open and flowing state, success happens more easily. Your client feels like a bird released from its cage. They can fly freely, navigating through the world with more presence, compassion, and power.

The Clear Belief Process technology is simple, yet it allows us to do our own deep inner work and thus increase the speed of transformation for our clients. The training is an intense and rich experience where you practice the techniques with others, and use them on yourself, so you can fully appreciate the technology and its impacts. You will also gain an inter-national community of practitioners and friends you can trust and rely on well into the future.

~ Florence Dauchy, Executive Coach, Bussigny, Switzerland

Levels of the Training

Prerequisites

The Clear Beliefs Coach Training provides advanced skills in transformational and therapeutic coaching. Applicants must have professional training in coaching, psychology, therapy, or the healing arts, and a history of inner work and personal development.

After completing the application, you will be interviewed by a member of our staff to determine your eligibility. With their approval, you may register for the course.

Level 1

Level 1 of the Training provides you with a solid foundational understanding of the workings of the mind, including the subconscious, conscious, and super-conscious.

You will examine the mind from many viewpoints: developmental psychology, consciousness itself, and the nature of beliefs, memory, and trauma. You will learn the basics: what beliefs are, how beliefs function to limit your perceptions and options, and what is required to change them where they live – in the subconscious mind. You will examine your own beliefs in a rigorous self-assessment, and look at the core wounds and traumas from the past that have impacted your life. With this foundational understanding, you can empower yourself to manifest what you really want in life.

We use the term *beliefs* to describe the deep infrastructure of the mind. There are many words to describe this infrastructure, such as constructs, assumptions, presuppositions, paradigms, mental schemas, and perceptual lenses.

Our beliefs function in the background of our awareness, acting as colored lenses that shape, filter and distort our perceptions, awareness, and responses. These core beliefs are our assumptions about ourselves (self-view), others (relationship-view), and the world (worldview). Our beliefs limit our perceptions, and they also enable us to interact with the world. All beliefs are limiting, because they act as “is-glue,” linking one thing to another. *Mother is kind. Dad is mean. Asparagus tastes bad. My name is Suzy. I am little. I have to follow the rules.* These conclusions are simplifications we need to navigate a complex and dangerous world. But because they are simple, they limit our vision of the world around us. Children base their behavior on these simple rules, and like a crimped pipe, they prevent us from fully experiencing life, love and happiness.

William Blake wrote, *“If the doors of perception were cleansed, everything would appear to us as it is: infinite.”* You have seen how your beliefs have impacted your life. When you see these constructs for what they are, you can delete them, opening yourself to new views, solutions and possibilities. Discard what no longer serves you, and make room for a new life.

Our view of “not passing” means “not now” or “not yet.” If that occurs, we will encourage you to re-take the training, which is offered at a very reasonable price. Most reviewers pass the second time through, and many students review the course periodically even after graduation. They always report that they got more out of the training the second time through than they did the first time.

Level 4

After you graduate as a Clear Beliefs Coach, you may enter Level 4, a graduate program for those who want to deepen their transformation, hone their coaching skills, and build their business for success in the world. It is offered as a monthly membership program with a minimum twelve-month commitment. A variety of Advanced Topics are covered and practiced in Mastermind groups where graduates share their experiences and learnings with each other. Earn a Return on Your Investment

We realize that the Clear Beliefs Coach Training may be one of the most important investments you make this year to take your professional practice and business to the next level.

Most of our graduates charge between \$150 and \$300 per hour prior to the training. After becoming ***Certified Clear Beliefs Coaches***, they are able to provide more valuable services and enroll more clients. Many increase their hourly fees accordingly.

At an average of \$250 per hour, you would need to add 35 hours of coaching services, or one week of full-time coaching, to pay for the course. This is the equivalent of adding 3 new clients who register for a 12-session program.

Graduates Praise for the *Clear Beliefs Coach Training*

The Clear Beliefs Coach Training gives coaches and practitioners a helpful skill set that can deal with blocks and challenges our clients struggle with. Now I can identify the deeply embedded and hidden core beliefs that are running my clients' lives. (And my own, as well!) This is monumental. Once I uncover the core belief, I can clear it from my client's subconscious mind, clearing the way for them to achieve what they truly want to achieve. I recommend this program for everyone, both for the deep personal work you will do, and for the professional development skills you will learn.

~ Nancy Smith, Certified Clear Beliefs Coach, Haverhill, MA

The techniques border on the miraculous, but they're grounded in science and presented step-by-step so you can apply them immediately. Taking this course was the best decision I've made for myself, my clients, and my business. It's a comprehensive, transformational and powerful course in belief change. Words can't do justice to the gratitude

I feel for having found this training.

I took this training to learn additional ways to facilitate deep subconscious change, and I'm delighted that I did. It is an absolute treasure trove of information about beliefs, the psyche, human behavior and who we are as beings. Lion is a fantastic teacher – kind-hearted, patient and extremely knowledgeable. This deep dive into the human psyche is born out of decades of study and practice in the realm of human experience and transformation. The learning environment is comfortable and inclusive, both grounded and enlightening. These skills will last a lifetime, and they will produce great results when you use them. Highly recommended!

~ Paul McCabe, Advanced PSTEC Therapist, London, England

The Clear Beliefs Coach Training is an essential advanced-level program for anyone in coaching, healing, or therapy professions. It truly helped me understand the structure and impact of beliefs and how they form the core of our personality. I can now guide others toward deeper self-awareness and self-empowerment. The methodology allows me to work directly with the subconscious mind and create significant change quickly.

~ Lisette Nazario, CPC Transformational Life Coach & Energy Therapist, Bloomfield, NJ

With these techniques, you can help your clients clear their deepest old beliefs, including the deep ones that have been hidden for decades. The Clear Beliefs Method cuts through resistance like a knife through butter. And during the course, you'll use the method to clear up your own lifelong issues, and come out of the training transformed, free, and empowered.

~ Michelle Berrios, RTT Advanced Hypnotherapist, Vallejo, CA

I'm confident with the tools I've learned here. They simply work. The presentation and skill-building was stellar, and we're taught how to integrate them into the methods we already use. I was amazed to witness the changes in myself and others during the course. It was a great learning experience. Lion's one-on-one sessions and demos are life changing. I experienced an undeniable shift in a very short time. It has re-sparked my entire coaching practice.

~ Jeanette Mounts, ACC, CBC, Intentions Life Coaching, Denver, Colorado

The Clear Beliefs training fills in the missing pieces that other programs don't (or won't) take on. I now feel confident to intuitively support others with almost any issue they might present. This program offers techniques for creating positive outcomes related to trauma, emotional dysregulation, and even physical issues such as pain. I feel fully prepared to work with the clients who are attracted to my practice.

~ Lorraine LaPointe, Head Heart Synergy Coaching, Ontario, Canada

I received much more value from this training than I had expected. The method is built on a solid foundation of theory and understanding of human development and the brain-mind-body system. The methodology offers great depth and breadth – and the results are stunning. You can easily help people access their deep subconscious beliefs and clear the ones that no longer serve them. This isn't psychotherapy – there's no story-telling. The tools and techniques are practical and easy to implement. They empower the client to continue their growth on their own. The teaching and support are generous, relaxed, and down-to-earth. This makes it easier to stay present and dive deeply into the practice, and also feel supported along the way.

~ Tim McDonnell, Co-Active coach, Austin, TX

I've worked with my beliefs using many other techniques, but this course went deeper than I had ever gone before. I was amazed to see how quickly transformation can happen. It's like learning another language that works better than the one you grew up with. Our class was filled with bright, experienced coaches, and there was consistent support from Assistant Coaches who are all graduates of the training. Many hidden aspects of my psyche were transformed. I feel fresh and alive, ready to help my clients transform from the inside out.

~ Arzu Ozkose, Prema Coaching, Toronto, Ontario, Canada

Each technique allows you to take your clients on a deep inner journey to release old traumas and beliefs that no longer serve. You'll learn to communicate directly with the parts of the personality that have been driving unconscious decision making, reactions, and habitual behavior patterns. It is a fascinating journey inwards that allows you to take others on that journey. If you want to explore your inner terrain and help others do the same, you will benefit greatly from this course.

~ Mara Schiffren, PhD, Health Ascent, Functional Medicine Coaching, USA

Before I learned the Clear Beliefs Method, something was missing in my coaching. When clients wanted to fully explore an issue, I felt like I was scratching at the surface. Now, I can really go deep, and I feel confident in my ability to do so! Lion's teaches powerful coaching methodologies in a practical way, and then grounds them through peer practice and feedback. I easily integrated this methodology into my current practice, and they have amplified my

effectiveness.

~ Kathryn Grohusky, Leadership Coach, Colorado

The practices are exceptionally powerful and life changing. I use them frequently with my clients and they love it. This is a must-have technology for coaches – a top of the line tool for permanent transformation of oneself and others. I've studied many different disciplines over the years, and in my opinion, it's the best one on the market. I have been using the methodology to create the life I've always wanted – and it's happened with extraordinary ease because I have cleared the internal resistance and blocks that were holding me back. I am moved, touched and inspired by the profound results that are available with the Clear Beliefs Method.

~ Marcelo Celis, Business Coach, Los Angeles, California

This was one of the most powerful and transformational trainings I have ever been part of. I was shocked at how quickly and fully it opened up what was blocking my life. I eliminated triggers and biases and created powerful new drivers for my life. It allowed me to become a better coach, daughter, sister, friend and the best version of myself. The work I did allowed me to re-connect with my own family after a lifetime of disconnection. For that, I am eternally grateful. The best parts of the training for me were the partner practice sessions, and the high quality of feedback I received from my practice partners and the Assistant Coaches. Even though this was my first exposure to these techniques, I am confident in my ability to use them with my own clients to help them rapidly transform. Thank you so much!

~ Kimberly Lee, Eating Disorder Recovery Coach, Berlin, Germany

The Clear Beliefs Coach Training is a beautiful, safe and engaged learning environment. People felt safe to be vulnerable and authentic, and because of this, we were able learn, explore and transform together. As a coach, I've seen that success is an inside job. People get stuck and don't achieve what they want because of the stories they tell themselves. These stories have their root in beliefs and perspectives we hold. This is what makes the program so impactful. The technology allows us to speak directly to the subconscious mind and create fast and lasting change from the inside out. It's a MUST for anyone looking to help others transform their lives and get the results they desire.

- Coach is willing to be vulnerable with client and have the client be vulnerable with coach.
- Coach is confident in self, process, and the client as a full partner in the relationship.
- Sense of complete ease and naturalness in conversation; coach does not have to “work” to coach.
- Coach is a completely connected observer to client.
- The connection is to the whole of who client is, how the client learns, what the client has to teach the coach.
- The coach is ready to be touched by the client and welcomes signals that create resonance for both the coach and client.
- The coach evidences a complete curiosity that is undiluted by a need to perform.

- Coach’s listening is completely attuned as a learner and listening happens at the logical, emotional and organic levels at one time.
- The coach recognizes intuitive and energetic perception that is felt when the client speaks of important things, when new growth is occurring for the client, and when the client is finding a more powerful sense of self.
- The coach hears the totality of the client’s greatness and gifts as well as limiting beliefs and patterns.
- The coach asks mostly direct, evocative questions that are fully responsive to the client in the moment, and that require significant thought by client or take client to a new place of thinking.
- The coach uses the client’s language and learning style to craft questions.
- The coach is fully based in curiosity and the coach does not ask questions to which the coach knows the answer.
- The questions often require the client to find deeper contact with the client’s shadow and light sides and find hidden power in himself/herself.
- The coach is not afraid of questions that will make either the coach or the client or both uncomfortable.
- The coach invites, respects and celebrates direct communications back from the client.
- The coach’s invitation to exploration is significantly greater than invitation to solution.
- The use of the client’s greatness is invited and welcomed. There is no evidence of “fixing” a problem or the client.
- There is a lovely sense of connected observation of totality of who client is and what client wants, sharing that with client and creating space for client to share back.
- The coach engages the client in relating goals and plans to other aspects of what the client wants, thereby broadening the scope of learning and growth.
- The coach trusts the client to be accountable to themselves and lovingly calls the client to account or discussion if agreed upon forward movement does not occur.
